This graph breaks down the data rea-of-focus by primary and secondary concerns.

ThinkTank I Overview

Here, the Data AoF is matched with the Processes/Tools discussed. This graph indicates further trends in the groups' discussion of concerns and solutions.

For example, the recommendation for an integrated platform arose as a primary process discussed in response to the concern of Access to Information.

Further analysis will break apart solutions from concerns.

ThinkTank I Overview

This graph breaks down the organisation area-of-focus by primary and secondary concerns.

ThinkTank I Overview

Here, the organisation AoF is matched with the Processes/Tools discussed. This graph indicates further trends in the groups’ discussion of concerns and solutions.

Here we see that MCCLLs, AARs, PQDRs and Beneficial Suggestions and the acquisition process are all heavily identified in the concern of Organisational Communication.

Further analysis will break apart solutions from concerns.
